

**Watersheds for Firesheds**  
Is the watershed in one of the Forest Service's Priority Forests?  
Start Here!

The watershed is NOT in one of the Forest Service's Ten Priority 'Firesheds'

A robust local collaboration/coalition is key to success - Don't have one? Start one!

Robust collaboration, at least some of the landscape is NEPA ready, there's a workforce AND the watershed is in one of the Forest Service's Priority 'Firesheds'

Water Source Protection Program (FS is developing guidelines - we'll announce when issued)

FS has EIS Funding and/or NEPA completed

FS Doesn't have EIS Funding

Good example: Rio Grande Water Fund (story coming soon!)

Stewardship contract in place? See here for examples. (coming soon!)

There's not an obvious entity to do the actual restoration work. (Location specific - contact us for suggestions.)

Good example of how a collaboration raised the funds: French Meadows Project (coming soon!)
